STANDUP FOR KIDS was founded in 1990 with the mission to help homeless and street kids. Volunteers do this every day, in cities across America, reaching out to homeless and "at-risk" youth, age 21 and under. The mission is carried out by outreach counselors who find, stabilize and otherwise help homeless and street kids by: providing information about the best resources possible and telling kids they care about them and then, at every turn, proving it.
